## REMEMBRANCE DAY SERVICE

### FITTINGLY OBSERVED

A strange commingling of feeling permeated the atmosphere as the audience gathered in the G. W. V. A. Hall Sunday to pay tribute to those who served in the war of 1914-18. Not only to those who had made the supreme sacrifice, but as well to those who came back to carry on in a world that is distraught with conflict on many sides.

Captain Rev. E. Melville Aitken, Pastor of Central Church, Calgary was the guest speaker. Opening his remarks the speaker said: "It seems strange that some of us can only know of the last war as a matter of history."

He paid high tribute to the men, stating that no more glorious records of loyalty have ever been established than those of the Canadian forces.

We must ever remember in solemn gratitude those who did not come back and their friends, those who did return and those who have been living in hospital beds for 21 years.

It is a deplorable state that we have not been able to hold high the torch of freedom for which they fought but with the attitude of dictators to crush all freedom of thought and action, Britain had no other choice than to resort to war. It cannot be said that the last war was in vain, we all have war as a consequence, even the dictators hesitate more to make the plunge.

Even while at war, we should be thinking of the peace that is to follow. Some memorials may crumble, but there are memorials which will not crumble in the pages of the hand-book of God.

Let us work in the hope that a peace may be established on the very noblest foundations.

A permanent peace must not mean material things where God intended them. Man as the most important creation in a Godlike state, and not putting material gain first in importance.

War is still with us because some of our people have not risen above greed and selfishness.

The preacher stressed the form of peace that must be entered into, to be lasting. He urged the restitution of the League of Nations, and a Peace built on Righteousness. It will be one of restitution. It will cost us something.

It must be a Peace based through with forgiveness. It must be a progressive Peace. A Peace to train youth in the ways of Christ.

Only when we as a nation will admit God into our deliberations will we get a perfect Peace.

The Price of Peace shall be the way of righteousness.

Rev. V. M. Gilbert and Geo. W. Lang were joint officiants and music was furnished by the combined choirs.

## STRATHMORE LEGION ARMISTICE

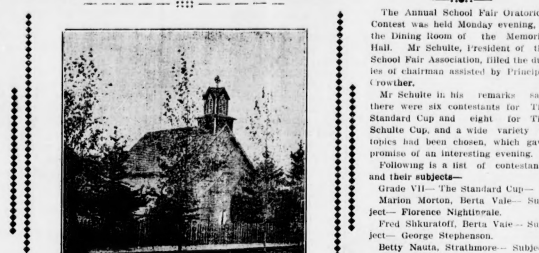

The dining room of the Memorial Hall was filled to capacity last Friday evening when the local branch of the Legion held its annual Armistice celebration. Super arrangements were as usual under the capable leadership of "Chief" Bob Gray, assisted by a well-organized committee, put on a fine spread. The President, J. B. of the new army made fitting remarks. Watson, filling the office of chairman, welcoming the guests, remarked how proud the members were to see how well the "new army" men from Strathmore and district, had accepted the invitation to be present. They were there almost to a man and accompanied by a concert party from the Calgary Highlanders. It was a pleasure to make the evening an enjoyable one.

The guest speaker for the evening, Staff Captain W. MacLennan, made no introduction to a well-attended audience. In his address he outlined what was planned in the order of sports and social activities for the soldiers in District No. 13 under his direction, and one gained the impression that in that line at least the powers that be were going to avoid the mistakes made in the overlapping of the last war, which all agree will be a great improvement.

Billy Gray made some very appropriate remarks in his toast to "The King," D. S. Brooks the "Bri Farrow" from Ardenwood was in his element proposing the toast to "The New Army." The troops got some advice as to what they took with more than a grain of salt, and the Scots element being somewhat predominant, Doug Gray had to give them a few tips. The salutes in reply and rebuttal caused great laughter.

At this point the Provincial Secretary

## THE 30TH ANNIVERSARY OF ST. MICHAEL & ALL ANGELS' CHURCH, STRATHMORE, ALBERTA

On November 21st, 1909, Bishop was to be painted. It is to be hoped that these "outward and visible signs" will have their ever increasing counterparts in the "inward and spiritual grace" to be found in those who make this church their spiritual home.

Except the Lord build the house, their labour is in vain. The church is the end to which the church is the means. That must be the first measurement of any attainment for worship. A new and shining temple stands on the (ecclesiastical) west end of the church to symbolize the Church (University) of the 20th, 1939. There will be special service at 8:30 a.m., 11 a.m., and 7:30 p.m. At the 11 a.m. service the Rev. R. B. Sherman, M.A., B.Litt., D.D., a beautiful Bishop's Chair is now set up in the Sanctuary. Next Spring day should mark a rededication of the roof and trimmings of the church to God.

The 30th anniversary service of the church to be held Sunday, November 26th, 1939. There will be special service at 8:30 a.m., 11 a.m., and 7:30 p.m. At the 11 a.m. service the Rev. R. B. Sherman, M.A., B.Litt., D.D., a beautiful Bishop's Chair is now set up in the Sanctuary. Next Spring day should mark a rededication of the roof and trimmings of the church to God.

## Local News Items

Mr. and Mrs. T. S. Hughes entertained at a very happy family dinner for a Ministerial Show in the City of Strathmore, Alberta, on the birthday of Mrs. Hilson, Mrs. T. S. Hughes' mother. The guests included Mr. and Mrs. Hilson, Mr. and Mrs. Leonard Hilson, Mr. and Mrs. Hilson, Mrs. T. S. Hughes, Miss Hughes, and George, Doris and Rossy Hilson. Following a sumptuous dinner, music and conversation combined to make a very happy evening. All wishing Mrs. Hilson many happy returns.

The Ladies Aid of the United Church will meet Tuesday, Nov. 28, at 8 p.m. at Mrs. McGregor's home.

Bobby Brown has returned home after a visit with friends at the coast.

C. H. S. HOSTS AT JOILY SHOWER

Popovers the attractive home of Hugh Berry and Mrs. Gladys Morgan was the rendezvous Saturday evening last for about 25 members of the C. H. S. when they met to honor "Two of their members who are shortly to become benefactors."

The groups are Edgar Peterson, whose marriage to Ruby Garfield, and Dave Penner of Saskatchewan and Miss Christine Dyle are events of the near future. Mr. Penner has lived with the Berries for the past three years and he is now returning to make his home at Clark's Crossing in Saskatchewan.

All sat down to a six course dinner. The table looked very lovely decorated with streamers of the club's colors, Royal blue, silver and white, these being festooned to large white wedding bells above and on the table vases of candy suckers in same colors. Delightful plates carrying out the color scheme were made by Miss Hilson Nilsson.

Paul Patching, President of C. H. S. presided over the following program. Toasts were proposed to the King by Buster Garriot, to the brides by Bert Hill, to Dave Penner by Olive Garriot and to Einar Peterson by Mrs. Hilson. Responses were made by the respective persons.

Diplomas were presented by the Chairman, Mr. Crowther to Marjorie Dawson and Miss Van Tighem to be congratulated on the manner in which her pupils acquitted themselves.

The cultural atmosphere created in our boys and girls by those painstaking teachers has a wealth of influence that cannot be measured.

Space forbids giving the program in full.

## "The Ottawa Spotlight"

RED CROSS NEWS BRIEFS  
During the past year, a total of \$161,836 was spent by the Canadian Red Cross in services to veterans of the Great War. The funds were spent for assistance in cases of illness, and complete, or some form, of the great need of work to be done before active training operations begin. A number of the provinces, deciding where the training facilities are to be located and surveying the sites. They are doing everything that can be done before the winter settles in so that snow is not going to prevent continuation of construction work. The project includes books, chairs, pens, pencils and erasers.

## NEW PRINCIPAL OF MCGILL UNIVERSITY

Dr. Frank Cyril James is a distinguished economist and scholar. In an interview Dr. James was asked what in his opinion is the great need to be forwarded by education of the world of today. This new principal provided a little less replied: "This is the basis of all present agitation to advocate a juster social wealth in which all shall have a chance."

## Value of the Junior Wheat Clubs

In the last issue of The Budget opinions were printed of some of the members of the Junior Wheat Clubs of Alberta regarding the operation of the enterprise. Herewith are given the opinions of a few more of the club.

Albert V. Surbald, High River: "We will have a new and better grade of seed in years to come."

Edith Charlton, Calgary: "This wheat club has improved the seed of our district greatly and I hope it continues."

J. R. Green, Blackfoot: "This grain club has improved the seed around district very much, as pure seed yields more."

John Goodwin, High River: "The club has very interesting, and the club is a good method of introducing good seed. I would like the wheat club to continue during the year."

Robert Whitelock, Calgary: "Due to the wheat club a lot of pure seed has been distributed in this district, bringing up the total average of pure seed now that of mixed seed."

Robert Green, Hermon: "The grain on our farm is all good. Red seed has improved the seed of the district."

An interesting and pleasant feature of the week is the evening in the past week was the evening in the Governor General, of Mr. Fairbairn, head of the Australian delegation, as Mr. Minors of Australia, has been recently appointed to give leadership to this institution which has for years been rendering such kindly service to the unfortunate girls of Southern Alberta.

Mrs. Hollins has a charming personality, a good voice and is a very able speaker. At the recent conference arranged for the visit of the Moderator was ranked very highly by those who have seen her. She has brought to her new task rare gifts and deep conversation.

You are cordially invited to Sunday evening at the United Church next Sunday evening at 7:30 p.m. when Mrs. Hollins will be the guest speaker.

## Committee To Canvas Town And District For Red Cross Funds

You will be approached within the next few days to contribute to the Red Cross Funds.

There is no more worthy cause. The money lighting for our freedom, must not go without any of the necessities or comforts that we can supply. The money lighting for our freedom, must not go without any of the necessities or comforts that we can supply.

The following men have been appointed official canvassers. Make their work easy by giving freely. Messrs T. E. Wright, S. H. Crowther, T. S. Hughes, Dr. Giffen, A. P. Gray, Jack Quinn, Art Lambert, H. McManis, and making one chap, George J. H. Miller, Elmer Gray, I. McKenzie, Joe Robinson, Geo. Smith, J. Swanson, L. Van Tighem, John Vermont.

If anyone is not approached in the next three days please get in touch with either T. E. Wright or T. S. Hughes.

ONLY 26 SHOPPING DAYS TILL CHRISTMAS

Continued from Page One

ive. It is felt here that cheese and bacon exports to Britain are certain to expand, and as explained by Mr. Gardiner recently at Winnipeg, that the British will use our wheat more freely.

Transport Controller—An important factor in the trade between Canada and Britain is the war time arrangement for shipping of commodities across the ocean. Britain has agreed to take all the Canadian output of copper, zinc and lead, and from Canada there will be increasing flow of food stuffs and munitions. Thus Canada will play her economic

part in the conduct of the war. On the other hand arrangements have been made for Canada to receive raw sugar and wool from Empire countries. There will be need to receive regularly from Britain as well as other commodities. Thus there will be the give and take of commerce, all governed by the war needs of the hour. But the importance available has its limits. There is the U-boat menace, the attack on British and neutral shipping, and which is the law in the United States which prevents that country's ship from operating in war zones. British ships must ply the seven seas. Therefore Canada must use the tonnage that can be secured for the North Atlantic

## Pot Pourri

What is this life—46—full of care? We have no time to stand and stare. No time to stand beneath the boughs And stare as long as sheep or cows. No time to see when woods we pass Where squirrels hide their nuts in grass.

No time to see in broad daylight, Streams full of stars, like skies at night. No time to turn at Beauty's glance, And watch her feet, how they can dance.

No time to wait till her mouth can Enrich that smile her eyes began. A poor life this if, full of care, We have no time to stand and stare. Leisure—William H. Davis.

trade in the most effective way possible. These are the principal reasons that have made it advantageous for the government to appoint a transport controller who will cooperate with the British ministry of shipping. The Canadian transport controller will receive applications from the governments of Canada, Britain and France and from private shippers for "priority" shipments over Canada's transport systems. These will be for supplies which must reach the other side as rapidly as possible. Thus there will be a minimum of waste of time in the shipment of needed supplies from factory and storehouse in Canada to the ports of Britain and her allies. As explained by the ministry of transport there is nothing in the new regulations to compel private parties to apply for priority routing, nor will government business be placed through the transport controller. The duty of the controller is simply to expedite the shipment of essential supplies. An order in council issued to be issued will explain the purpose and functions of the new office.

## VALLEY GARDENS

On Wednesday last week an interesting group of people gathered in the hall of the Valley Gardens to listen to addresses on various topics.

Mr. Crowther, Mr. Ayres, Mr. Weldon Harman and Mr. Hickey were the speakers and Mr. C. H. Gladden was in the chair.

Mr. Crowther's address which was given in detail in last week's paper, was listened to with interest and appreciation.

Mr. Ayres spoke on the "Larger School Unit." Mr. Weldon Harman's topic was "Schools & Citizenship" and he stressed our necessary attributes which go towards making a good citizen—tolerance, a sense of humor, the ability to think clearly and co-operation.

The last speaker was Mr. Hickey, who discussed the "Modern Aspects of Education." Mr. Hickey told of the attempts that are being made to coordinate the natural activities of the child with the subject matter to be taught. This new idea of "learning while doing" is the most effective way of teaching young children. The speaker illustrated, in an interesting manner, the natural tendencies of the child to dramatize himself and his actions; and showed that by cultivating this quality we have a valuable aid in education.

At the conclusion of the addresses the chairman invited questions. The "Larger School Unit" came in for a major share of the discussion which followed. Pertinent questions, with regard to the school pump were fired at Mr. Ayres who laughingly dismissed any connection with the "Unit" in its official capacity. Everyone present thoroughly enjoyed the evening and a hearty vote of thanks was accorded the speakers. After the meeting was adjourned the discussions were continued over the coffee cups.

It is interesting to note that the school pump which had been out of order for some time, was repaired on the following day.

If co-operation is an attribute of good citizenship then we have a good share of good citizens in Valley Gardens and Nightingale, as witnesses the recent work which has been done on the graded roads. Messrs Hendricks, Morgan, Kenney, Kimmet, and Gladden have all had a hand in it, not forgetting the local council Mr. Peter McLean.

Mrs. Hickey entertained at bridge on Thursday last, when she and three other local ladies made a foursome. At the conclusion of the game the guests partook of a delicious lunch.

Mr. Weldon Harman is spending the week end at his parents' home.

## THE WORLD OF WHEAT

By H. G. L. Strange  
Director—The Crop Testing Plan

An appeal for funds for the Canadian Red Cross is now being made throughout Canada.

During the last war numbers of Canadian and Allied soldiers were taken prisoners, and many of them are alive today only because "prisoners' parcels" supplemented the meagre rations of the prison camp. Hundreds of thousands of our soldiers, war-weary, shell shocked, gassed, wounded and shattered in battle, were better able to endure their sufferings because of the extra "comforts" they received. Untold numbers of old men, and of women and children, refugees from, or living in, enemy occupied areas, found a few "necessities" given them the only bright spot in their sad and dreary lives.

These prisoners' parcels, these comforts and necessities, were provided by the Red Cross; and large supplies of all these same good things will be needed during the present war.

Each one of us has the high privilege of being able to assist this splendid ideal work by responding generously to the appeal for funds. Some can donate cash while others perhaps can better give grain, butter or eggs. Whatever each gives will bring comfort and cheer to our soldiers, whether shell fire and in front-line trenches are steadily and gallantly defending our precious freedom.

Viscount Gort, Commander-in-Chief of the British Army in France, has just expressed his belief that men and not machines will win the war.

This is in keeping with the conviction of all the great commanders of the past; and military history reveals clearly that it was the infantryman with his bayonet, or the assistant foot soldier with his sword, who finally won battles. War machines such as armoured cars, tanks, and aircraft, all of course, are most valuable help, but it is still the foot soldier who will decide the final issue.

But just as war machines require fuel in the shape of good oil, so will Viscount Gort's men require fuel in the shape of good food. The last war showed unambiguously that the German soldiers toward the end were severely weakened by poor food; by their tough indigestible black bread; whereas the British soldiers maintaining their full vigor to the last, mainly because they had an ample supply of excellent white bread—without any bran or shorts in it—and made to a great extent from high quality Canadian wheat.

Great Britain and her Allies now have command of the greater part of the world's good oil and good wheat, which is a fortunate thing for all of us.

Mr. Brownhill, in the latest issue of his "Corn Trade News" writes as follows on the wheat situation—

"It is a happy augury for the success of our wheat campaign that the surplus reserve of some 400 to 450 million bushels exists on the other side of the Atlantic, within a fortnight's voyage, and is available to our shores. The British Government and the British people are thankful now that Canada did not reduce her acreage in any wheat campaign, and that would have been necessary if a system of international control had been enforced."

This column on October 12th, expressed exactly the same sentiments, but it is nice to know from Great Britain herself that our Canadian surplus is so valuable to the Allies.

It does seem, therefore, as though it would be only fair if Great Britain and her Allies would pay a bare "cost of production" price for the Canadian wheat the use during the war, just as they are paying a fair price for most, if not all, other war commodities; and \$15.1 I believe would be near such a price. Certainly their present price of 70 cents a bushel is far below the present cost of wheat.

Mr. Brown, the general representative of the Cuckhull Company, accompanied by Mr. Gray of Strathmore was on a business trip in the district on Friday.

We were allowed to eat pheasants after all, and were they delicious. A dish of pheasants stuffed to bursting point and roasted to a turn, accompanied by a tureen of bread sauce and flanked by bowls of mashed potatoes and Brussels-sprouts made a meal which evoked pleasant memories of the good old days. The only thing missing was the glass of port afterwards, but with wheat at 50 cents a bushel—?

Monday morning is no longer "blue" in Valley Gardens. There are sundry new washing machines in use, and the husbands concerned no longer wear a hunted look on washing day.

## CHRISTIAN SCIENCE

"Ancient and Modern, Necromancy, alias Mesmerism and Hypnotism, Disenounced" is the subject of the Lesson Sermon at all Christian Science Churches on Sunday. The Golden Text is Isaiah 8:19. One of the Scriptural citations is "Watch and pray, that ye enter not into temptation; the spirit indeed is willing, but the flesh is weak" (Matthew 26:41). One of the correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, is "That will or matter has neither intelligence nor power, is the doctrine of absolute Christian Science, and this is the great truth which strips all disguise from error. The superiority of spiritual power over sensuous is the central point of Christian Science".

## THE HEAVEN OF LOVE

I rose at midnight and beheld the sky. Sows thick with stars, like grains of golden sand. Which God had scattered loosely from His hand. Upon the floorways of His house on high. And straight I pictured to my spirit's eye The giant worlds, their course by wisdom planned. The weary waste, the gulfs no sight hath spanned. And endless time for ever passing by. Their fill with wonder and a secret dread. I crept to where my child lay fast asleep. With chubby arm beneath his golden head. What cared I then for all the stars above? One little face shut out the boundless deep. One little heart revealed the heaven of love.

—Frederick George Scott

—10:11—

## CANADIAN RED CROSS ACTIVITY

—10:11—

Red Cross News Briefs  
The Canadian Red Cross Society has accepted the generous offer of Viscount Astor for the use of ground on the Cliveden estate upon which the Society will erect and equip a 200 bed hospital. It will be used to house wounded Canadian soldiers during the present war. By agreement with the Red Cross the Canadian Department of National Defence will approve and operate the hospital.

Canadian railway and other transportation managements have agreed to give free transport to all war supplies under the Red Cross auspices during the war period.

Supplies of material for Red Cross purposes have already been bought to the value of \$15,000. Orders for future delivery to the value of \$25,000 have also been placed.

Members of Canadian Clubs in United States cities will be able to contribute to Canadian Red Cross war funds. An application to the Canadian Secretary of State will bring a permit to collect and forward monies for the assistance of sick and wounded among Canadian forces. This collection was secured through the offices of the American Red Cross Society.

Should hospitals for the use of the Army Medical Corps in the war zone be needed the Canadian Red Cross Society will build them as funds are available. This is a reported decision of the Society's National War Committee.

Attention is drawn to the fact that the \$25,000 fund for which the Canadian Red Cross is now campaigning.

is intended to cover both peace and wartime activities of the Society. All official canvassers in the campaign will carry official permits for identification purposes.

On Monday, November 12 the Canadian National Red Cross Society began its \$250,000 war fund campaign. Alberta's allotment in the campaign is \$150,000. In the northern part of the province Mr. W. J. Dick, of Edmonton, is campaign manager, with Capt. K. McLeod, Manville, as his assistant. In the south Mayor A. Davidson, Calgary, is manager, his assistant being Mr. W. A. Austin of Didsbury.

While the actual fund campaign does not start until Nov. 13, the Society has not only organized for war service as an auxiliary of the C. A. M. C., but is busily engaged through its volunteer workers in preparing war supplies already asked for. This advance activity has been made possible through cash advances guaranteed by the chartered banks of Canada to the extent of \$500,000.

From the French Red Cross and the Legation of the French Republic at Ottawa the Canadian Red Cross Society has received communications emphasizing their needs. These include medical supplies, dressings, clothing, bed coverings, socks, food, absorbent cotton, bandages, surgical materials, disinfectants, splints and sterilizing equipment.

The American Red Cross has supplied the French Society with 5,000 blankets, 30,000 suits of underwear and 20,000 other garments. In addition the American Society has provided \$25,000 worth of medicines for Polish sick and wounded as well as underwear and blankets for Polish refugees in Hungary and Rumania.

GOOD MAP FOR 25c

The Standard has some excellent maps of Europe for sale at the moderate price of 25c. These are clear and well colored. You will need one to follow the events of war.

In addition a Time table shows the

corresponding times in various places. The navy, the air force, the militia strength in numbers are shown for Great Britain, France, Germany, Canada, Russia, China, Australia, etc. Drop in to the Standard office and secure one of these maps without delay. Only 25c.

Nearly always it is the forces behind the scenes that exert the greatest influence in momentous issues. The more gigantic and protracted the ordeal, the greater determining factor these deeper sources of vital supply become.

In the present titanic struggle to assure a continuance of the freedom of Democracy, the vital sources of the Empire will be tested. The fine fighting forces of the British and the French will undoubtedly again display the courage and skill which have in times past brought them high honor and victories.

On them we can depend, but just so long as the base continues to furnish food and munitions. "An army marches on its stomach" was Napoleon's way of expressing it, and just as surely is the morale of the civilian population maintained at the dining table.

On Canada—the greatest agricultural country in the Empire—does Britain place her dependence for foodstuffs. Our wheat and other grains, our livestock and dairy products, our fruits and vegetables, take on a new and very vital significance and the highest efficiency in their production is essential for the national welfare.

It is fortunate that, today, back of a mechanized army is a mechanized agriculture—Canada has the most highly mechanized farming in all the empire, with power machinery for almost every farm operation, giving greater efficiency and saving time and labor, producing greater crops with fewer men.

The leadership shown by Canadian implement makers in the developing and making available of power-farming equipment of exceedingly high efficiency, so that Canadian farming might be made more profitable, now equips it to render the utmost in the specific contribution that Canada is called on to make, and can make, to the success of the Empire's cause.

Massey-Harris takes pride in the part it has played in the mechanization of Canada's farming and is eager to serve unselfishly and unsiftingly in the field of its specialized knowledge and experience to aid agriculture meet the needs of the Empire.

Canadian Agriculture—The Empire's Life Line

### Rapid Changes In This Changing World, The St. Lawrence Waterway

The following letter was written October 25th, 1934 by our Ottawa Correspondent.

Now within the last two months Premier Heppburn has made a right about face and signified to Premier Mackenzie King his entire accord with the project.

The War and Ontario's need for more power is cause for the changed attitude.

Mr. Duplessis is no longer Premier and his opinion will now have little weight.

The St. Lawrence Waterway will likely open up for much discussion at the next Federal election.

While it is an Eastern project, all of Canada will be effected more or less directly—hence we need to know some of the conditions connected therewith.

The St. Lawrence Waterway—

One would not need to be a prophet to forecast that it will be a considerable time before the St. Lawrence seaway project is begun. During the past week Mr. Duplessis, premier of Quebec, and his opposition to the plan.

With both Ontario and Quebec against it, it can have little chance of success. Mr. Heppburn, premier of Ontario, has strongly opposed the project ever since he came to power.

Without recalling its various details it may be remembered that the main features of the project are the

canalisation to a depth of 26 feet of the international section of the St. Lawrence and the interlocking between Canada and the United States, that is between the province of Ontario and the state of New York. With the other canal now in operation along the St. Lawrence route, ocean vessels would be able to sail between the cities at Montreal, Lake Superior and the open Atlantic. Port William and Port Arthur as well as all cities lying eastward along the route would be ocean ports.

Six years ago a St. Lawrence seaway treaty was signed by the United States and Canada, but was rejected by the Congress at Washington, last August at the opening of the Thousand Islands Bridge, President Roosevelt made a strong plea for the construction of the waterway and the power plants.

The government at Ottawa has not expressed either approval or disapproval of the plan. "The Ontario government has been vitally interested in the project as Ontario would be the recipient of the power and would bear the expense of its installation, was asked by a federal minister to appoint experts who with Dominion experts would make a survey of the whole plan. Premier Heppburn replied that all assistance necessary had been supplied by previous commission and he reiterated his reasons for opposing the project.

These were in the main, the high and uncertain cost of the canal construction with the expense of deepening harbours along the route, the increased competition to the railways which would result from the deepening of the waterway, and above all, the power situation. There was too much electric power already in the hands of the Ontario government, and it would be many years before Ontario would have any use for the new St. Lawrence power.

Mr. Duplessis also said that Quebec had all the power it needed with a reserve of millions in the province. Mr. Duplessis questioned the right of the Dominion to make a power treaty as private council decisions had affirmed that the bed of the rivers belonged to the provinces through which the river flows. The jurisdiction of the Dominion was solely over navigation.

### WHO WOULDN'T

The Editor of The Camrose Canadian wants to know why people swear. We are surprised that a newspaper editor should ask such a question.

Anyone that has to do business with such crummy stuff as printing machinery, ink and paper, just can't keep from swearing.

The big newspaper press will run as smooth as silk for weeks. Then comes a time when the paper is lost and everything is in an uproar. And that crummy blankety blank press will develop a streak of cussedness that would try the temper of ten very arch-angels.

The weather needs to change but a trifle and printing ink will display a brilliancy of disposition one would never suspect in such seemingly innocuous material.

And what a linotype wouldn't cause you little way of trouble when it sets into a recalcitrant frame of mind isn't worth while bothering about. Job's troubles were dry hables compared to those of an operator whose linotype machine is on the rampage.

Then it usually happens that when one is in the throes of an epidemic of mechanical trouble along comes an irate subscriber to bawl you out because you have mislabeled the paper. Holy Mackerel!

—Brooks Bulletin.

And Jack Frost can so charge the newspaper with electricity, that words won't describe the state of nerves it creates in all who have to handle it.

### Preparing For Peace In The Midst of War

PRESIDENT ROOSEVELT, in a message sent this week to the National Foreign Trade Convention, said that all thoughtful persons must realize that economic nationalism is the most prolific breeder of wars. His letter said in part:—"It is a confidant that our business men throughout the country, despite their preoccupation with the day to day problems they must face, are turning their minds in this hour to the problem of how war may be averted in the future. They realize, as all thoughtful persons must realize, that economic nationalism is the most pro-

## RADIO OPINIONS

AND NEWS—Phil Carrington, PUBLICITY DEPARTMENT CFAC

A SAFETY CLUB WORTH WHILE—

Mothers and Fathers—do you realize just what the benefit of a Club, which directs your child to watch for his or her own safety can be? Well, here is just the answer to your problem. You don't have to remind your boys and girls to become a member of the Lone Ranger Safety Club. Once they become a member they will take a personal pride in watching out for themselves, and telling their companions about the easy way in which they can make this matter of safety into a game, and at the same time have a lot of clean, wholesome fun. Just ask them to listen to the Lone Ranger over CFAC each Monday, Wednesday and Friday at 6:30 p.m. to find out how they may become members. We are sure if they do it will take a load of worry off your minds. Won't you do this mothers and fathers? And while we are talking of clean, wholesome fun, may we suggest that for those of you who stay at home for supper on Saturday nights, why not tune your dials to CFAC at 6:30 p.m. and listen to the sweet, scintillating music of Wayne King. It is so beautiful and soothing.

CARDS FROM BOB BURNS—

To Crosby he wrote—"Hyla Bieg," To Trotter—"Good stuff—that Bachman thing you did 'Bachman'." He returns to the show on November 30th.

QUARTETTE GETS START IN O'KEEFE SHOW—

One of the sensations of radio this year is the group of four singing youngsters, two boys, two girls, called "The Martins," that have made a nation wide his since their appearance on five out of six O'Keefe programs. These kids have brought a rare combination of fresh youth and extreme technical skill to broadcasting, and have scored such a hit that they are being featured in the new musical featuring Simone Simon. "Three Blind Mice."

HENRY BIRKS & SONS (WESTERN) LTD. 314 — 8th Ave. West — CALGARY

Lyalta

Mr. and Mrs. Harry Neilson have moved to Calgary where they are running a grocery store. We wish them success.

The Beech brothers have just returned from a hunting trip north with the report that big game is hard to find.

The Cheville Hutter Girls Club held their dance and quilt raffle on Nov. 17th in the Lyalta Hall. A large crowd attended. The quilt was won by Jim Bohmstedt. The Club take this opportunity of thanking everyone for their support.

Threshing is almost finished in the Lyalta district. A few more days and the farmers will be finished for another year.

## ENGAGEMENT ANNOUNCED

Mr. and Mrs. A. J. Downey announce  
the engagement of their youngest  
daughter, Anna Ellen, to Mr. Woodrow  
Nelson, eldest son of Mr. and Mrs. Ed-  
ward Nelson of Ladue. The wedding  
will take place December 2nd.

## Under The Street Lamp

UNDER THE STREETLIGHT  
Pat and Mike lay in opposite beds in  
a hospital ward, both suffering from  
the same kind of leg trouble. The  
doctor came along and attended Pat's  
leg. The poor fellow screamed with  
pain. Then the doctor looked at  
Mike's leg, twisted it, pulled it, but  
Mike didn't make a sound. After the  
doctor had gone, Pat boasted to his  
friend: "You are the bravest man I've  
ever seen."

"Well," Mike replied calmly, "I  
saw what he did to you, so I showed  
him my good one."

One of the local Scotsmen has at  
last found a way to stop his wife from  
spending money on gloves. He bought  
her a diamond ring.

"How did you get that suit on your  
coat boy?" asked the negro con-  
ductor. "Why dat ain't no suit, dat's  
dat!" replied his partner.

Headed on a Southern newspaper:  
DAILY HURRICANE  
Formerly The Evening Breeze

Spence Hughes had put the family  
in the budget pin. At the end of  
each month, he and Mrs. Hughes  
would go over the accounts together.  
Every once in a while, he would find  
an item "L. O. K. — fair" and a  
little further on "L. O. K. — \$200."

Finally he said: "My dear, what is  
this 'L. O. K.'?"

And she replied sweetly: "Lord Only  
Knows."

There is money to be made in writ-  
ing—but it is not on the gen-  
erality of those to whom you write.

Elise Sorenson: "You ought to see  
'Hamburger the Great.' Carl! He's  
a headliner."

Speed: "What a funny occupation.  
But who wants his head lined anyway?"

Dunc Gordon: "I'm so sorry to hear  
of your moving apartment."

Fredrick Holmes: "Oh, his nothing. I  
expected to live through many more."

Dunc Gordon: "Oh, I hope not."
